

Arab Pharmaceutical Glass Co.

Arab Pharmaceutical Glass Co. (APG)

The Story of Success

Since its establishment in 1980's, Arab Pharmaceutical Glass Company S.A.E. (APG) has been recognized as a pioneer manufacturer of pharmaceutical glass products in the middle east region.

APG S.A.E. was formed as an independent subsidiary of ACDIMA (Arab Company For Drug Industries & Medical Appliances) with 78% of the shares held by ACDIMA and 22% held by National Bank of Egypt and Egyptian Holding Pharmaceutical Company.

With a compounded annual sales growth of 10% for the entire pharma flint and amber bottles & vials, APG enjoys its leadership position in the niche pharmaceutical packaging market, as it is the only company in the middle east and one of the few in the world who manufacture and market the entire pharma range of glass bottles and vials.

APG is the largest manufacturer of pharmaceutical glass in the middle east. Through its advanced manufacturing technology, superior technical expertise, APG's reliable quality and perfect services (focusing on aftersale services), has gained the domestic and international customer's extensive trust. Its products are sold to more than 100 local and regional pharmaceutical companies and exported to 15 countries.

APG Values

Customer Focus: Anticipate customers needs.
Quality : Consistently exceed the customer's expectations.
Creativity : Continuous innovation.
Team Work : Foster the healthy work environment.

Company Credentials

Over 25 years of experience in the glass production field has earned APG an immense understanding of customers needs. This has led to greater flexibility in producing standardized & customized products. Its range of standard and custom products cover the following categories in different specifications; Ogivals, Verals, Vials, Drops, Jars, Other Syrup Bottles, Juice bottles and Foodstuff jars.

APG has invested extensively in modern manufacturing tools & production infrastructure to meet and exceed the needs of its quality conscious customers. APG modern facilities include; electronically controlled batch house, glass melting furnaces, 6 automated production lines, electronically controlled state-of-the-art forming machines and inspection machines. Using the latest technology that is being handled with professional staff, APG is able to produce 1.25 million glass bottles and vials every day throughout the year.

APG main strategy was built on customers' needs and expectations, through which the company was able to achieve sustainable development and strong market presence.

APG Total Quality Management (TQM)

APG demonstrates its commitment to quality through;

- Documentation and data control.
- Traceability systems.
- State of art metrology labs.
- Continuous training of the staff.

Arab Pharmaceutical Glass Co. (APG)

APG Vision

Our vision is to expand our regional leadership position in the pharmaceutical glass manufacturing field.

APG Mission

Our mission is to work for the success of our customers by providing reliable & high quality glass products that best satisfy their needs. We deeply believe that our customers success is ours.
